Statement letter on meeting REACH Requirements

Dear Sir or Madame,

According to §59 of the REACH Regulation, EC no. 1907/2006, our wood and wood products do not contain any substances in the concentration of more than 0.1 mass% (w/w) indicated in the REACH Regulation. With regard to the ingredients it is therefore not necessary for you to ensure a particular safe use. It is therefore not necessary to register any products or ingredients.

As a wood products supplier, we will, of course, fulfil our duty to provide information, should anything be changing affecting the REACH Regulation.

Best regards,

Plyterra Group
