

## Attestation E1-994

Herewith it is confirmed that in the first half of 2021, performed on 22.04.2021, a regular supervision of the product

### BIRCH PLYWOOD FILMFACED

plywood, birch, phenol - formaldehyde (PF), laminated  
in the thickness range:  $\leq 25$  mm

manufactured by

**Closed Joint-stock company "Plyterra"**  
**Leninskaya str. 1**  
**431105 Umet, Zubovo-Polyansky region**  
**Russia**

was carried out by the approved supervision body (NDS08)

### Fraunhofer Institute for Wood Research

Wilhelm-Klauditz-Institut WKI  
Bienroder Weg 54E, 38108 Braunschweig, Germany

according to supervision contract no. 994 dated November 11, 2019. It was found that the requirements on personal and equipment are suitable to produce the product in an adequate way and the factory production control meets the requirements of the "Regulation on the classification and external supervision of wood-based panels regarding formaldehyde emission (DIBt - Guideline 100)" dated June 1994. This attestation is part of the evaluation report. The continuous external supervision of factory production control shall take place twice a year.

**Dipl.-Ing. Harald Schwab**
